

Dear Spring Camp Cheerio Campers,

We are very excited to be hosting Spring Camp Cheerio again after a two-year hiatus!

To keep you all safe we will be requiring the guidelines below, as well as having a limited number of campers this year, and requiring masks indoors. Please do not wait to register as we may fill up fast.

We will be following CDC Guidelines. Please note that these requirements may change between now and May.

- **Ages 12 and older: Fully vaccinated including booster & a negative Covid test within 24 hours before camp.**
- **Ages 1-11: A negative Covid test within 24 hours**

Please be ready to upload your vaccination card when registering for camp.

Proof of full vaccination status required for ages 12 and up:

- 2nd dose received in the last 6 months and not eligible for booster
- Booster received if eligible (over 6 months since 2nd dose)
- J&J vaccine within last 6 months
- J&J vaccine and booster if eligible (over 6 months since 2nd dose).

You can order COVID tests online here for free <https://www.covidtests.gov/>

You must use the **24 Hour Rapid ANTIGEN** Test because the 72 Hour PCR Test will stay positive for months if you have been Covid Positive in the past.

There will be a separate google form created right before camp for everyone to upload proof of the 24-hour covid test.

Stay home if you're sick at all
